Where Scholarship Seekers and Scholarship Providers Meet.

Turbo Scholarship is a reference platform that effectively connects a marketplace for a host who provides to promote their scholarships and for students to easily find and match to them.

Get Started Now

Two Sides of The Same Problem

For students, the process of researching, finding and matching to suitable scholarships is daunting, tedious and not very fruitful. This often results in:

- missing out on opportunities
- applying to too many scholarships
- applying to unsuitable scholarships
- applying to scholarships that are not available

Scholarship providers finding mismatched or non-qualified applications, possibly not awarding the scholarship at all – also a daunting task and further process.

“...and a two-sided solution.”

For Scholarship Providers

Turbo Scholarship makes it easy to create, manage and promote scholarships across various types of organizations:

- Colleges and universities can offer scholarships specific to their institutions, reaching more and more relevant students.
- Trade and vocational schools can provide grants and scholarships to people within their own communities.
- Non-profits can promote their unique brand of scholarships across the country without prohibitive marketing expenses.
- Private and public companies can bolster community support activities with scholarships and grants, while also creating a funnel for possible future recruits.

For Students

Turbo Scholarship makes it easy to get automatically matched to millions of dollars in college scholarships for free. The diverse range of students who benefit includes:

- High school, college and university students.
- Near-completers (some college credit but no degree).
- Employed, unemployed or continuing education students.
- Diploma, certificate and license seekers.
- Test prep workers.

Turbo Scholarship Offers

- Over \$100 million in national and international scholarships.
- 6,000+ scholarships, and growing every day.
- Hundreds of fully-verified scholarships available every month.
- Easy matching to relevant scholarships based on individual criteria, helping students choose the right one.
- Direct referrals, many with no GPA requirements.
- A one-stop shop, greatly reducing the time and effort required to find scholarships and grants.

Make Access to a University Degree easier!

With Turbo Scholarship, students have a much greater chance of finding the help they need to grow their lives, and providers gain access to a flourishing market of qualified and motivated students.
